**REQUEST FOR CORRECTED FILING RECEIPT**

Dear Sir:

Pursuant to 37 C.F.R. 1.78(a)(2)(i) an application claiming a benefit of a filing date of a prior-filed application must be amended to include a reference to the prior-filed application. Pursuant to 37 C.F.R. 1.78(a)(2)(ii), such reference is considered timely if made within four months of the filing date of the later-filed application.

The present application has a filing date of August 1, 2001. Therefore, a claim to a filing date of a prior-filed application is considered timely if made by December 1, 2001.

On November 14, 2001, Applicants mailed a preliminary amendment to provide a reference to several prior-filed applications.

On November 30, 2001, Applicants mailed a declaration that included an affirmative claim to priority of the several prior-filed applications.

Applicants are submitting herewith, a copy of:

- (a) the preliminary amendment with a certificate of mailing showing that it was deposited with the U.S. Postal Service on November 14, 2001;
- (b) a return postcard for the preliminary amendment showing a USPTO date stamp of January 11, 2002;
- (c) the declaration with a certificate of mailing showing that it was deposited with the U.S. Postal Service on November 30, 2001; and
- (d) a return postcard for the declaration showing a USPTO date stamp of December 12, 2001.

Applicants respectfully submit that since both of the preliminary amendment and the declaration were mailed before December 1, 2001, Applicants' claims to priority were timely filed. Accordingly, Applicants are requesting a corrected filing receipt.

More specifically, Applicants are requesting that the filing receipt state that the present application is a continuation-in-part of U.S. Patent Application Serial No. 09/503,640, filed February 14, 2000, and that the present application also claims priorities of (a) German Patent Application No. 100 37 870.6, filed August 1, 2000, (b) European Patent Application No. 01116916.6, filed July 11, 2001, and (c) U.S. Provisional Patent Application No. 60/255,214, filed December 13, 2000.

Please charge any additional fees or credit any such fees, if necessary to Deposit Account No. 01-0467 in the name of Ohlandt, Greeley, Ruggiero & Perle. A duplicate copy of this sheet is attached.

Respectfully submitted,

Charles N.J. Ruggiero

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

---

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
